REQUIREMENTS FOR A MINOR IN ENVIRONMENTAL SOIL SCIENCE

The College of Agriculture and Life Sciences requires a grade of **C or better** in any course used to fulfill the requirements of a minor. All courses must have the word soil in the title to be used towards this minor.

The following course is required:

SCSC 301

An additional 11 hours must be taken from:

SCSC 309-spring
SCSC 310-spring
SCSC 405
SCSC 406
SCSC 401-fall

SCSC 422-fall
SCSC 432-fall
SCSC 455-spring
SCSC 458-spring

Procedure to declare a minor:

1. Alert your major department that you desire to obtain a minor.
2. Visit with an advisor in the department with which you desire to obtain a minor to obtain information and requirements on the minor. Ask the minor department to accept you in the minor program. An SCSC advisor will sign below if you are approved.
3. Return to your major department and indicate that you have been accepted by the minor department. The major advisor will make your acceptance official.
